DUPLICITY SUSPECTED

Spain's Temporizing Awakens Distrust at Washington.

MADRID GOVERNMENT PARLEYING FOR DELAY.

Washington, Aug. 4.—Special—It seems probable that, as a result of the war with Spain, the United States will have a whole drove of elephants on its hands. Cuba will be the biggest of the lot. As time passes it becomes more and more evident that the people of the island are utterly unfit for self-government. They possess all the worst traits of the Indian and the Spaniard—the indolence and cowardice of the former combined with the treachery and cruelty of the latter. It is an admixture of blood which creates a race of people hard to govern or control. To prevent these people from excesses of lawlessness will be no easy task, and a strong arm will be required to preserve even the semblance of order. The officials here do not underestimate the difficulties they will have to encounter. They have formulated no plans except to provide for the maintenance of a large standing army on Cuban soil. Circumstances yet to arise will doubtless be permitted to dictate the course to be followed. There are, however, great apprehensions of trouble ahead for the government.

Washington, Aug. 4.—Special—The officials are reticent about the peace negotiations. It is thought, however, that the diplomatic deal is practically closed, and will be announced either here or in Madrid before Saturday night.

Evidence of Spanish Treachery

Washington, Aug. 4.—Special—Spanish quibbling over the American terms of peace is not unexpected, and the suspicion that the propositions were merely a ruse to gain time is deepening into a conviction. It is not believed that M. Cambon knowingly lent himself to such a deception, for his course has been manly and straightforward. If, as now seems probable, he has been made a dupe of the treacherous and designing Spaniards, the nation he sought to serve will be the loser through the alienation of confidence its course will involve. American interests will not suffer by reason of Spain's treachery, as military and naval operations are being conducted with as great vigor as though no suggestions of peace had been received or entertained.

Spain's Quibbling.

Washington, Aug. 4.—Special—It is learned that the chief objection of the Spanish government to the American memorandum of terms of peace is to the provision which requires the immediate evacuation of Cuba and Porto Rico. This the Spaniards desire to avoid, as it would bar them from a back-down, which has manifestly been arranged contingent upon a dispute arising as to the disposition of other captured Spanish provinces. The president and his advisers remain firm, however, in making this condition a requisite to further negotiations. To do otherwise would be regarded as a surrender of nearly all that has been gained thus far by force of arms.

Points to Peace.

Madrid, Aug. 4.—Special—The ministers, despite their silence regarding the negotiations with the United States, seem to feel convinced that the outcome will be peace. A council of war has been summoned to meet today. The Progreso says everything points in the direction of peace.

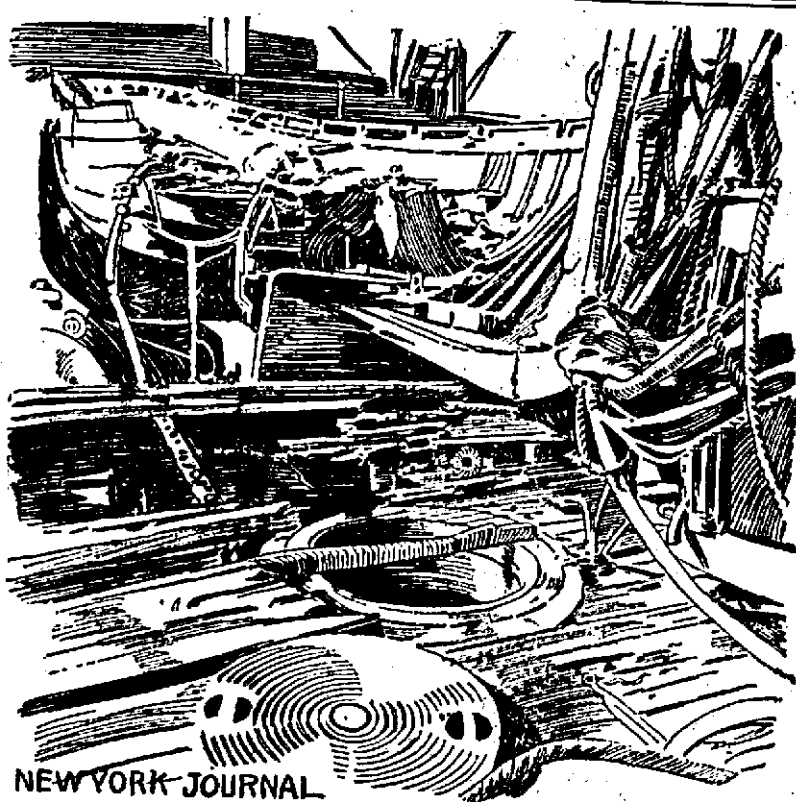

Washington, Aug. 4.—Special—That the end is in sight is evidenced by many little circumstances. Orders have been issued by the secretary of war closing the war department at four o'clock instead of five as has been the custom since the war began.

An Embarrassing Delay.

Washington, Aug. 4.—Special—The administration is anxious on account of the delay in transporting the Spanish prisoners from Santiago to Spain. The delay is embarrassing the war department in many ways, as it interferes with plans in regard to troops and involves the government in increased daily expense.

Sagasta to Retire.

Madrid, Aug. 4.—Special—It is announced that Sagasta will retire as soon as the articles of peace are signed.

NEW YORK JOURNAL

EFFECT OF A SPANISH SHELL ON THE TEXAS.

When this shell struck the American battleship, Captain Philip was standing on the bridge. He immediately sent the officers with him to places of greater safety, but himself remained at his exposed post. This view of the damage to the Texas was taken looking toward the bow and shows how the planking of the superstructure was rent and torn. All of this part of the ship might have been shot away, however, without putting her out of action. The picture was taken July 4.

EXODUS TO THE SOLDIERS' REUNION

JANESVILLE SENDS A LARGE DELEGATION TO CLINTON.

Gov. Scofield Stopped Enroute and Was Escorted to the Rendezvous By a Large Number of Veterans—The Gathering One of the Largest Seen in This Section.

All roads led to Clinton today, the occasion being the annual Soldiers' and Sailors' reunion and judging from appearances it will be a most successful gathering in all ways. The day was perfect for the occasion and the crowds poured into the village from all points. The first train to pass through Janesville bearing the excursionists was the regular Chicago train at 6:40 a. m. and had on board a good delegation from Janesville, including the band of that place, dressed in immaculate white duck uniforms. The Imperial band, the G. A. B. and W. B. C. and about seventy-five from Janesville went on the 7:40 train.

Governor Scofield in Janesville. At 11:30 a. m. Governor Scofield arrived over the O. M. & St. P. road, accompanied by Dr. A. H. Hollister, of Madison. His excellency went at once to the Grand Hotel, where dinner was awaiting him, and proceeded to satisfy the gubernatorial appetite. He modestly registered at the hotel as "Edw. Scofield, Ontario." At 12:40 p. m. he left for Clinton, where he was to make an address during the afternoon exercises. A delegation of about fifty accompanied him from here. Through some misunderstanding or blunder on the part of the employees of the road, the train pulled out before all were on board, leaving many on the platform.

Rode Behind a Coal Black Team. During the forenoon Liveryman Dan Ryan received a telephone message from the Clinton people directing him to send down his coal black team and a carriage for the use of the governor, and they went in time to meet his excellency at the depot upon the arrival of his train. In the ball game this morning between the Clinton nine and the Y. M. C. A. team from this city the former team won by a score of 7 to 2.

JACKSON STREET PAVEMENT

Work Will Be at Once Begun by the Racine Contractors.

City Clerk A. E. Badger received a letter this morning from James Cape & Sons, of Racine, who have been awarded the contract for macadamizing North Jackson street, from Wall street to Mineral Point avenue. They write that they will commence work Monday next. Part of the grade and curb stakes have already been set, and the balance will be put in at once.

BOUGHT OUT THE BUSINESS

W. E. Clinton & Co. Take Trade Of a Former Monroe Concern.

W. E. Clinton & Co., proprietors of the celebrated "Janesville Bludery," have bought the stock and existing contracts of the Hanson Bludery at Monroe, the proprietors of that establishment having retired from the business. This change insures that the people of that vicinity will get good work, and that their dealings will be with an obliging and capable firm.

JANESVILLE MAN SHOT IN ARIZONA

EDWARD MADDEN MEETS A TRAGIC DEATH.

Bullet Pierces His Brain and He Die in a Few Hours—Belief That the Pistol Was Accidentally Discharged—He Lived This City Fourteen Years Ago For the West.

A long delayed letter was received today from Pueblo, Col., conveying the sad news that Edward Madden, a former Janesville man, had been shot and mortally wounded on July 11 last, during a quarrel with one Frank Delaney, who lives near the school for the blind, and a brother-in-law of Charles Gray, also of this city. The dead man lived here until about fourteen years ago, when he went to Pueblo, Col.

A Fatal Quarrel. About three months ago he went to Billmunt, Arizona, and entered the employ of a firm of contractors. While their construction outfit was moving on cars, July 11 last, he became involved in a quarrel with Delaney, the stable boss, who shot and killed him. Only one shot was fired from a 32-calibre revolver, which struck him over the left eye. He lived from 12 o'clock noon until 3 o'clock the next morning, when he died, having been unconscious all the time. The shot is said to have been partly accidental, as Delaney was scuffling with another man, who was trying to get the gun away from him, when it was discharged. However, Delaney intended to shoot him and is now in jail. Madden was buried at Flagstaff, Arizona. The letter conveying the news was sent to Pueblo, Col., to the firm he formerly worked for, and from there was sent on home, and has just been received.

Hoped It Was a Mistake. His relatives at first thought it was another party of the same name who was killed, as they thought Edward was in Alaska with a surveying party, but have now come to the conclusion that he was the man. It is not known whether the remains will be removed here or not.

Edward Madden was a trustworthy and competent man, and his employers spoke in the highest terms of him in their letter.

HURRY THE CAMPAIGN

Porto Rico to Be Subjugated Before Peace Is Declared.

NATIVES ARE WELCOMING THE TROOPS WITH ENTUSIASM.

Washington, Aug. 4.—Special—High government officers are doing everything in their power to hurry troops under General Wade to Porto Rico before an armistice is arranged with Spain. The complete capture of the island is desired as a means of enforcing the American demands.

Arroyo in Submission.

Arroyo, Porto Rico, Aug. 4.—Special—The third landing of American troops took place Wednesday from the St. Louis and St. Paul, the army taking the place of the navy, which accepted the surrender of the town Thursday. Guerrillas are still lurking about town and fired on the Americans at the outposts. The people of the town are rapidly making friends with the soldiers.

Ponce, Aug. 4.—Special—Arroyo, thirty miles east of Ponce, and twenty miles nearer San Juan, has surrendered. The Wasp and Gloucester were ordered there Tuesday, and the people gathered on the beach to receive them. Eight minutes later the stars and stripes were hoisted over the custom house and the Americans were in possession. The surrender of the town is very important.

No New Developments.

Washington, Aug. 4.—Special—Secretary Day went to the white house before 10 o'clock this morning, and had a long conference with the president. Up to eleven o'clock the French ambassador, M. Cambon, was in conference with the president, and it was impossible to learn either at the white house or state department of any developments in the negotiations for peace.

St. Pierre, Martinique, Aug. 4.—Special—The Spanish hospital ship Alicante sailed this morning for Santiago. She will convey the prisoners back to Spain.

Decisive Battle Expected.

New York, Aug. 4.—Special—A special to today's Evening Journal from Ponce says: Strong American forces from the front and rear are closing in upon Aibonite, where 5,000 Spaniards, strongly entrenched, hold the road to San Juan. The decisive battle of the Porto Rico campaign will be fought there in a few days. The chief attacking army is within twenty-two miles of Aibonite.

Another Hospital Ship Horror.

Washington, Aug. 4.—Special—The government has another hospital ship horror on its hands. Information has reached the war department that the condition of affairs on the Santiago, which has arrived at Egmont Key, Fla., with sick and wounded aboard, is fully as bad as that of the Seneca and Concha.

Sanitary Conditions in Santiago.

Santiago, Aug. 4.—Special—The reports of the healthfulness of this city are not borne out by the facts. There is little yellow fever among the residents, but other diseases are causing a high death rate. The work of cleaning the town progresses.

Wants to Withdraw Troops.

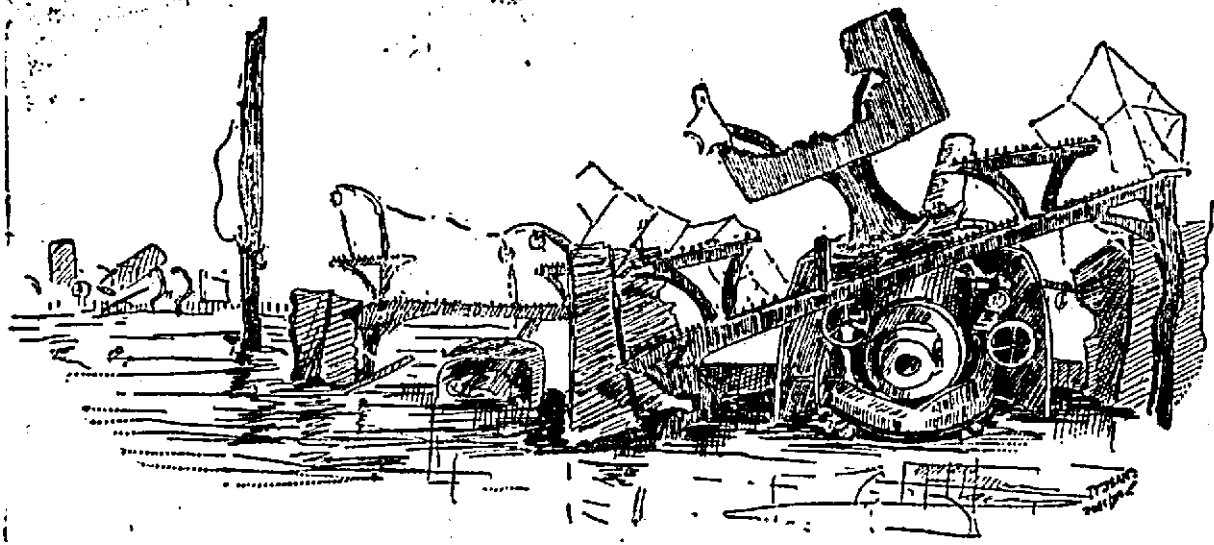

Washington, Aug. 4.—Special—It is reported here that General Shafter has asked for the withdrawal of his army from Santiago and vicinity to the United States. Malarial fever is playing havoc with the troops, hence the request.

Garrison Will Surrender.

Santiago, Aug. 4.—Special—The Spanish general at Manzanillo has asked Garcia if he will be allowed to march to Holguin with his command without molestation by the Cubans. The Cuban leader has granted the request.

More Flags Wanted.

Washington, Aug. 4.—Special—A dispatch has been received from General Miles asking for American colors. There is great demand among the Porto Ricans for the flag.

THE WRECK OF THE CASTILLA AT MANILA.

The accompanying sketch, made by an English officer for the London Illustrated News, shows what Dewey's guns did to the Spanish cruiser Castilla.

Warships to Be Called Home.

Washington, Aug. 4.—The Atlantic squadron is soon to be reduced. After the fall of San Juan most of the powerful fighters will be sent north for repairs. The present purpose is to turn the St. Paul and St. Louis over to the army for transports and send the two remaining ocean liners, Harvard and Yale, to be put in condition to be returned to their owners for transatlantic commerce. The four Morgan liners, which became converted cruisers, the Prairie, Yankee, Dixie and Yosemite, were bought by the government outright. As soon as peace has been declared they will be put out of commission and offered for sale.
The abandonment of Commodore Watson's proposed cruise to Spain seems to be regarded by the higher officials of the navy as entirely probable.

Thinks Canal Will Be Built.

Chicago, Aug. 4.—Lyman E. Cooley is filled with the expectation of soon seeing the United States government assume the responsibility of constructing the Nicaragua canal. He arrived at this belief after a conference with the officials of the Maritime Canal company in New York, the corporation which owns all the rights along the proposed route of the canal. The great reason for this expectation is the strong public sentiment which has been aroused in favor of the canal. The trip of the Oregon and the annexation of Hawaii, Mr. Cooley thinks, have convinced President McKinley and the American people that the canal will not only be a convenience but a necessity in the future.

No Stamp on Money Orders.

Washington, Aug. 4.—"A great many people throughout the country," said Deputy Auditor Lawshe of the post-office department, "are under the impression they must affix a 2-cent internal-revenue stamp to a money order. This is an error. No stamp is required. Under the law a postmaster exacts a fee of 2 cents for every money order issued. The people ought to know that only a fee of 2 cents is required and no stamp in addition thereto."

More than twenty million free samples of De Witt's Witch Hazel Salve have been distributed by the manufacturers. What better proof of their confidence in its merits do you want? It cures piles, burns, scalds, sores, in the shortest space of time. People's Drug Co., corner East Milwaukee St.

HONORS THE DEAD PRINCE.

Imperial Rescript Recounts the Splendid Services of Bismarck.

Berlin, Aug. 4.—An extra edition of the official Reichsanzeiger, just published, contains an imperial rescript addressed to the imperial chancellor, Prince Hohenlohe, and dated Friedrichshagen, Aug. 2. It says:
"With my high allies, with the whole German people, I stand mourning at the death of the first chancellor of the German empire, Prince Otto von Bismarck, Duke of Lauenburg. We who witnessed his splendid labors, who looked up to him with admiration as the master of statecraft, the fearless fighter in war and peace, as the most devoted son of the fatherland and as the most faithful servant of his emperor and king, are deeply affected by the death of the man whom God the Lord fashioned as His instrument to achieve the realization of the undying aspiration of the Germans for unity and greatness."

"This is not the moment to enumerate all the achievements of the great man who has gone to his rest or to refer to all the cares he bore for this empire and the empire and all the successes he won. They are too mighty and too manifold. History alone can do them justice and will engrave them all on bronz tablets."

"I am, however, impelled to give expression before the whole world to the universal sorrow and grateful admiration which today animates the whole nation; and in the name of the nation to vow that what he, the great chancellor, under William the Great, created, I will maintain and develop, and, if need be, defend with blood and treasure. In this may God help me."

"I instruct you to make this rescript public."

Yesterday's services at Friedrichshagen will be the only obsequies until the mausoleum on the site of the famous stag group near the Schloss is completed. The national obsequies have been postponed till that time.

FIFTH MOVES AT LAST.

Illinois Regiment Is Finally Started for Porto Rico.

Chickamauga-Chattanooga National via St. Thomas, D. W. I., Aug. 3.—The Fifth Illinois Infantry, after numerous disappointments, finally got away toward the scene of action today.
At 1:30 o'clock Wednesday the regiment broke camp and marched nine miles to Ringgold, Ga., where trains were waiting to convey it to Newport News. The loading was done rapidly and before noon the last of the trains had pulled out. The route to Newport News is over the Western & Atlantic and the Seaboard Air Line through Atlanta.

Col. Culver, the commander, will report to Brig.-Gen. Fred Grant immediately upon his arrival and the regiment will go with Gen. Grant's detachment to Porto Rico.

Oshkosh Strike Not Broken.
Oshkosh, Wis., Aug. 4.—The opening of the sash and door factories was not a success. Small crews reported at each of the factories, but the total number of men at work was not so large as the force in the factories when operations were suspended.

Lee Going to Cuba.

Washington, Aug. 4.—Preparations are being made to dispatch Maj.-Gen. Fitzhugh Lee and the Seventh army corps to Cuba immediately after the conclusion of peace between the United States and Spain. The plans provide for the embarkation of the troops within a week if Spain submits to our terms of peace. The regiments of his command have been mobilized at Jacksonville, a convenient point for embarkation.

Spaniards Are Despondent.

Madrid, Aug. 4.—Senors Santos, Guzman and Calvo, and other chiefs of the Spanish party in Cuba, have arrived at Santander. They are despondent over the prospects in the island, and fear that the violent animosity existing between the separatists and loyal Spaniards will result in conflicts. They predict that the United States will be compelled to maintain in Cuba for years an army of 100,000 men.

Starvation on Isle of Pines.

Key West, Fla., Aug. 4.—The report that the Isle of Pines is furnishing food supplies to Cuba is emphatically denied. It can be asserted on the strength of unquestionable authority that the island itself was denuded of its food resources a month ago, and its own people are now starving.

Sickness in Shafter's Army.

Santiago de Cuba, Aug. 4.—According to the reports of the chief surgeon there were 4,164 cases of sickness of all kinds in Gen. Shafter's army up to Tuesday night. Of this number 3,212 were suffering from various fevers, and the remainder are chiefly affected by dysentery.

Report Little Yellow Fever.

New York, Aug. 4.—Three cablegrams were received Wednesday from Miss Clara Barton. She reported that she needed no more nurses at present, as there was very little yellow fever at Santiago, and that the troops suffered chiefly from malarial fever.

Blanco to Make One Defense.

Key West, Fla., Aug. 4.—Gen. Blanco will stake all upon a single throw. Havana, Matanzas, Mariel, Cardenas and all the Spanish strongholds on the north coast have been stripped of their artillery and fighting men to make the capital impregnable.

A Good Time To Advertise

A great many people are timid about pushing their advertising at this time—either the war or uncertainty about the stamp tax or some other reason causes them to hesitate. It is often a wise thing to be on the opposite side. In other words, when others are not advertising, increase yours in The Gazette.

THROWS LA FOLLETTE OVERBOARD.

The Milwaukee Sentinel is still at sea, but there can be no mistaking the meaning of the paragraph that follows. The Sentinel clearly desires to throw Mr. La Follette overboard, and put up some new man in his place. The Sentinel extols the La Follette platform—which is simply a republican platform and substantially the same as would have been suggested if Mr. La Follette was not seeking office—and then goes on to say:

"But Mr. La Follette's campaign has aroused unnecessary resentments and these have been intensified by the methods of his newspaper organs and the petty politicians who have been making themselves conspicuous in his cause. Many republicans have come to believe that the La Follette movement was vindictive in its methods and unkind of results to the party, so long as its supporters accomplished their purpose; that they have been more anxious to destroy Gov. Scofield than to make a campaign for correct political principles; that they have made such unwarranted attacks on the governor's acts and motives as to cause indignation of fair minded people, and to excite vigorous protests against their assumption of all the virtues and political honesty in the party. The sincerity of state house employees traveling about on railroad passes raising the cry of 'anti-pass law' against the governor, and the honesty of other state employees drawing salaries from the state and absent from their desks running La Follette papers may well be questioned. So there are those who may well ask whether, after all, it is not office, rather than better government that they are clamoring for. In Milwaukee, too, there is much bitterness as the result of the spring campaign when Mr. La Follette's active workers here declined to give cordial support to Mr. Gender, the party's nominee for mayor and a man of undoubted independence and unimpeachable integrity."

The closing paragraph is very significant:
"Under these circumstances, if Mr. La Follette is nominated, can he hope to secure the united support of the party? Would not another candidate, whose methods could not be condemned and who has not aroused deep-seated animosities be the wiser choice? This is another question for the republicans of the state to answer in the state convention in this city on August 17."

If The Sentinel feels this way, and wants to throw Mr. La Follette overboard, why does it not openly advocate that action? There is no question but what Mr. La Follette should be beaten, and The Sentinel must realize that the best interests of the party require his retirement in Governor Scofield's favor. Governor Scofield's success is essential to party welfare. To nominate any one else will but prolong the internal dissensions and encourage bolters and breakers in attacking the party they should commend.

MR. COOPER WINS OUT.

Congressman Cooper will be renominated at Elkhorn next Wednesday. It has been apparent all the time that his renomination depended upon the result in Racine and Kenosha counties. The Kenosha caucuses were held a few days ago, and Congressman Cooper carried them. The Racine caucuses were held Tuesday, and the following dispatch appeared in yesterday's Milwaukee Sentinel:

Racine, Wis., Aug. 2.—Congressman Cooper has carried the city caucuses and will receive the solid support of the delegation from the First Assembly district of Racine county at the congressional convention to be held in Elkhorn, August 10. The anti-Cooper forces were routed in every ward, sixty-two Cooper delegates being elected. These delegates will meet at the city hall Friday to elect twelve delegates to the congressional convention. Much interest was taken in the caucuses, about 1,500 votes being polled. Mr. Cooper had things his own way, his delegates being elected by large majorities. A republican caucus was also held in the Seventh ward of Racine tonight and Cooper delegates elected. This ward is in the Second Assembly district.

Rock county should now "make it unanimous," and send a solid Cooper

delegation to Elkhorn. Then Rock county will "be in line" at the end of Mr. Cooper's term, and a Rock county man will certainly succeed him. A vote for delegates known to be in favor of Mr. Cooper's renomination will be a vote for a good man, the best interests of the republican party, and also for the best interests of Rock county.

RESULTS ARE DESIRED

The Milwaukee Sentinel says "The Oshkosh Northwestern, The Janesville Gazette, The Madison Journal and The Milwaukee Evening Wisconsin have been most profusely abusive and unreasonable in treatment of The Sentinel's fairly stated suggestion of a new candidate" and that "It does not necessarily follow that any of these papers is dishonest in motive or even in method; but they should not be too hasty in assailing others who may be at least equally disinterested and unselfish with themselves."

None of the papers mentioned have any desire to injure The Sentinel in any way, but The Sentinel has made a serious mistake and must hear plain talk concerning it. The Sentinel has not taken an open stand on the question at issue—whether the party shall live for principles or for the purpose of enabling individuals to get revenge for imagined grievances—and in dodging a responsibility it cannot make friends of men who have the courage of their convictions. The Sentinel must know that to nominate a third candidate will not dispose of this issue, but simply postpone the settlement for two years. For this reason the mass of republicans desire decisive results and no plan to avoid the responsibility of settling the internal warfare will meet with popular favor.

MR. LAWLESS ON "BRYAN PAPER"

A. D. Lawless, one of the well known and substantial farmers of the Town of Rock was in town yesterday and called at The Gazette office.

"I have taken The Gazette for thirty years," said Mr. Lawless "and I do not take any stock in this paper (spreading a copy of The State, the La Follette organ on the table.) "That, paper reads, as if it were edited by William Jennings Bryan. It comes to me 'subscription paid' but I do not like it. Down my way the people like Governor Scofield and take no stock in this Bryan paper."

G. S. Crosse, editor of The Stoughton Hub and formerly a strong supporter of R. M. La Follette has made charge that Mr. La Follette has written letters to democrats asking them to help pack republican caucuses in his favor. Mr. Crosse's statement has not been denied. That is about the kind of "reform" that can be expected of the La Follette machine.

The pulpit of the Wisconsin La Follette machine organette says: "The political editor of The Gazette is either an unqualified falsifier, a monumental fool or a most consummate ass." The Gazette hardly feels warranted in denying that such is the case, as the critic is an unquestioned authority on the "fallings" mentioned.

A certain La Follette organette suggests that a prize lying contest be inaugurated under the management of The Gazette and The Milwaukee Evening Wisconsin. Evidently the La Follette organette wants to enter the contest and wishes to be sure that the debate will be fairly and honestly conducted.

Congressman E. S. Minor, of the Eighth district, was renominated by acclamation at the Green Bay convention. This is as it should be, and indicates that the republicans of the district are working together for the common good of the party.

The company that made gold from sea water has gone to the wall, and the general belief seems to be that the scheme was a swindle. It is much easier, it would appear, to get gold from suckers on land than to extract the precious metal from the ocean.

Wisconsin never had a more faithful, conscientious or business-like executive than Governor Scofield. He represents the principles of the party, and all good republicans should rally to his support.

Nils P. Haugen, of the La Follette machine, has announced himself a candidate for congress. One by one the roses fall. All the La Follette machinists seek some office.

Congressman Cooper has carried Racine and Kenosha and is certain of a renomination. Rock county should make it unanimous. Vote for Cooper delegates tomorrow.

Interviews published in The Milwaukee Sentinel show that Brown county people are strongly in favor of Governor Scofield's nomination. This is but another straw.

Up to the hour of going to press the rumor that Mr. A. R. Hall had taken editorial charge of The Milwaukee

Sentinel had neither been confirmed nor denied.

Friends of Governor Scofield and the republican party should rally at the caucuses tomorrow, and vote to down the La Follette machine.

Congressman Cooper's endorsement in his home city—where he got all the delegates—was as hearty as it was complete. Worth always wins.

The Gazette is very glad that its record is to be printed. This paper was founded over fifty years ago, and is proud of its success.

Something should be done to Admiral Cervera's officers. They walk the streets of Annapolis whistling "After the Ball."

Stand by the administration. Go to the caucuses tomorrow, and vote for delegates who will support Governor Scofield.

Of course the Spaniards want peace—after we have knocked them to pieces.

Do not vote to honor a man who trades the party of which he asks favors.

REPUBLICAN STATE CONVENTION.

Headquarters, Republican State Central Committee, Milwaukee, June 15. To the Republican Electors of Wisconsin: By direction of the State Central committee, a convention of the republican electors of the state of Wisconsin will be held in the city of Milwaukee on Wednesday, the 17th day of August, 1898, at 10 o'clock, noon, for the purpose of nominating a republican state ticket to be voted for at the general election in November next, and to transact such other business as may properly come before the convention.

The republican electors of Wisconsin are cordially invited to unite under this call in sending delegates to said state convention. In accordance with a resolution recommended by the state convention and formally adopted by the State Central committee, in electing delegates to the state convention, in counties having more than one assembly district, except Milwaukee county, the unit basis shall be the assembly district, and in such counties delegates shall be elected by assembly district convention, and the names of the delegates so elected shall be certified to the State Central committee by the chairman and secretary thereof; in all other cases delegates shall be elected by county conventions.

Under the present basis of representation the general assembly districts in the state are entitled to one delegate for every two hundred and fifty (250) republican votes, or major part thereof, cast at the last preceding presidential election. Special attention is hereby called to the fact that all conventions to elect delegates to the state convention must be held on a notice of not less than four weeks; all town or ward caucuses as primary to state convention on a notice of not less than ten days, and that notice of the meeting of such convention or caucus shall be given in the usual manner.

As the State Central committee acts as the Committee on Credentials, it is requested that credentials of delegates elected, duly certified by chairman and secretary of county or assembly district conventions, be forwarded to the secretary at Republican State Central Committee headquarters in Milwaukee, immediately upon their election; in every case giving the names in full and postoffice address.

EDWIN D. COE, Chairman.
JOHN M. EWING, Secretary.

Rock county will be entitled to 33 delegates, distributed among the assembly districts as follows: First district, 9; Second district, 11; Third district, 13.

Chinese Children.

A traveler recently returned from China is most enthusiastic over Chinese children. He states that they are as pretty and bright as buttons and run scurrying away from wherever you may chance to walk in the quarter. The parents are very fond of their children, especially the men. The women do not seem to care much for their offspring, but the men fondle the little ones all day and love to carry them about in their arms. It delights a Chinese father to have his children admired.

The babies are undeniably interesting. The little boys assume the dignity of one string when they are about 5 years of age. Red is the prevailing color for the cues of both the boys and girls. It means simply youth and has no sinister significance, as so many Americans think. The Chinese children wear any number of bangles, beads and bracelets by way of decoration. It is not unusual to see bangles on their bare ankles as they run through the streets. Their clothes are very brilliant, although there seems to be a growing and unfortunate tendency to dress them in the American fashion.

Many of the children go to American mission schools, and parents of heathen faith allow their children to go to the "white devils' missionary schools because of the advantage they have in learning English. After school hours the little ones play on the sidewalks. Their games are queer, and the most common material, such as sticks and stones, are playthings for the Chinese child. One of their favorite games is a worm and a bowl, and the screams that greet the worm's attempt to escape are fraught with merriment and terror. The little girls are less happy than the boys, and they are usually staggering under the weight of an inordinately fat baby brother, but they do not seem to mind. They are extremely obedient children and appear brighter than little Americans of the same age.

Ninth Illinois to Jacksonville, Fla. Springfield, Ill., Aug. 4.—Col. Campbell of the Ninth regiment, rendezvoused at the state fair grounds, received orders from Adj.-Gen. BE UNANIMOUS FOR MR. COOPER

Racine Journal Concedes
His Renomination.

MAKES MANLY STATEMENT OF
THE CASE.

Says It Has Never Disregarded the
Wish of the Majority, and Will Not
Do So Now But Will Accept the
Party Judgment and Support the
Ticket—Predicts His Certain Elec-
tion.

The Racine Journal, which has
been opposing Congressman Cooper,
now admits that the congressman
will be renominated, and in a manly
way promises him its support. Un-
der the heading "The Party Will,"
The Journal speaks editorially as fol-
lows:

"Congressman Cooper, having
carried the caucuses in this city will un-
doubtedly be nominated by the con-
gressional convention on August 10, if
Walworth and Rock counties make
good their promises to send Cooper
delegations if Racine supported him.
"The contest just closed, while ani-
mated and exciting, was devoid of
bitterness, and while Mr. Cooper was
most strongly opposed by a respect-
able minority, because of his success
there rancidness none of the hostility
which those opposed to the success of
the republican party hoped for. If
Mr. Cooper ultimately secures the
nomination he will be elected without
doubt. This is a republican district,
and furthermore this is a republican
year, and a candidate who stands on a
republican platform never stood a bet-
ter show of election than he will stand
this year.

"For reasons which have heretofore
been thoroughly discussed the Journal
has not favored the nomination of Mr.
Cooper, but the Journal has never yet
repudiated the wish of the majority as
expressed in convention, nor will it in
this case if Mr. Cooper is nominated
as indications point that he will be.
As has been stated before in these col-
umns, it is no badge of disloyalty to
party to favor the nomination of one
republican over another, else in Wis-
consin this year as a result of the
spirited contest over the governorship
a very respectable minority of the re-
publicans of the state would be read
out of the party.

"The stirring up, it is hoped, will be
beneficial to Racine. The congress-
man's home city, after this campaign,
will expect him to carry out his prom-
ises regarding the harbor. The Jour-
nal sincerely hopes that something in
this direction may be accomplished,
and if so the lively opposition to the
congressman may not have been
amiss."

LEAVING TEAMS UNHITCHED

Profligate Cause of Many Runaways That
Endanger Life.

There is no city in the world of the
size of Janesville where so many run-
away horses and teams are seen as
here. There is no city in which so
many horses and teams are left upon
the streets unattended and unhitched.
The first fact is directly related to the
last.

There is an ordinance of the city re-
quiring all persons to hitch their
horses before leaving them upon the
streets. Few people pay any attention
to the ordinance; no one seems to be
concerned in its enforcement. During
the past three months scores of per-
sons have sustained painful injuries
by reason of runaways, and many
have been made cripples for life.

It is impossible for the city police to
keep an eye upon all the teams that
are left standing along the streets.
That duty alone would require the
sole attention of double the number
of officers employed by the city. It
seems to do little good to arrest of-
fenders, and it would be impossible to
corral them all, yet it would seem
that some protection is due citizens
from the carelessness of visitors, for
most of the offenders in this regard
are farmers. Their teams, too, are
far more likely to run away than are
the city horses, for they are unused to
city scenes and city noises, and are
easily frightened. Farmers should
know this fact and take the necessary
precautions against runaways. If
they fail to do so they deserve little
sympathy if they sustain personal in-
jury or pecuniary loss.

BOTH WERE COMMON DRUNKS

Justice Today

John Conroy, a common drunkard,
was before the municipal court today
on the charge of vagrancy. He was
left in the custody of Chief of Police
Hogan for one week. If he sobers up
during that time and shows evidence
of a desire to make something of him-
self, he will be released.

John Roberts was charged with be-
ing drunk and disorderly. He prom-
ised to go to work and leave whiskey
alone in the future. So the court al-
lowed him to go. A watch will be
kept upon him to see that he keeps his
promise.

pers sold in this part of the state.

M. P. RICHARDSON IS THE REFEREE

TO PASS UPON BANKRUPTCY
CASES HEREAFTER.

The Rock County Bar Association
Votes to Instruct President Smith
to File His Official Recommendation—
Something About the Work-
ings of the New Law.

Justice Marshall P. Richardson will
be recommended for the appointment
of referee in bankruptcy, under the
new law. The Rock County Bar As-
sociation met this morning to select a
candidate for the position. The names
of O. C. Russell, John Cunningham
and Justice Richardson were presented.
The latter was chosen. President
Smith of the Bar Association was
instructed to recommend his appoint-
ment.

The new national bankruptcy law
was passed and became a law July 1, 1898,
and goes into effect August 1, as to
voluntary bankruptcies, and November 1
as to involuntary bankruptcies. The
measure supersedes all state laws re-
lating to assignments and insolvency
proceedings, and vests in the federal
courts executive jurisdiction of such
matters. Referees are appointed by

M. P. RICHARDSON.

the district judges in localities that
will accommodate the public. They
have the power of a court in the super-
vision and administration of the es-
tate. The creditors appoint a trustee
who reduces the property to money
and makes a distribution as the re-
feree directs.

The Expense Light

The expense of the proceeding is
small and every safeguard thrown
around the creditors and property. A
meeting of the creditors is required
to be held within thirty days after
the bankrupt is declared and there-
after from time to time as may be
necessary for the promotion and best
interests of the estate. Within thirty
days the debtor, if an honest one,
may be discharged from all liability.
Three or more creditors of a debtor
whose claims exceed \$500 may file a
petition to have the debtor declared
a bankrupt. The act is simple and
efficient for the prompt and econom-
ical settlement of insolvent estates.
Every safeguard is given the cred-
itor as well as the honest debtor and
likewise every opportunity is given to

Position is Permanent.

The referee is an officer of the court.
His position will be permanent. As
many as necessary will be appointed
in such described districts as shall be
deemed wise. One will be appointed
for Winnebago county and already
three applications have been made for
the position. The referee must be
able to handle the legal end of the
business while the duties of the
trustee appointed by the cred-
itors are purely of a busi-
ness nature. The trustee transacts
the business of the estate and reports
to the referee who directs and approves
of the trustee's actions and directs the
distribution of the dividends. The
compensation of the referee is ten dol-
lars for each case and one per cent of
the total amount of the dividends
which the estate will pay. The fee of
the trustee is five dollars for each case,
and not to exceed three per cent of
the dividends in cases involving \$5,000
or less, and a lesser graduated com-
pensation for larger estates.

A Bold Experiment.

"I had hard work to keep that boy
of mine from reading cheap novels,"
said the resolute man, "but I finally
succeeded."

"How? By keeping them out of his
way?"

"No, I knew it would be no use to
try. So I merely required him to learn
two pages from one of them by heart
every day, and now he dodges them and
reads school books for amusement."

What He Wanted.

"You know," she said, with a little
asperity, "that women have the reputa-
tion of being able to make money go
farther than men!"

"That's true," replied the man of
small economies, "and it's just what I
object to. What I want them to do is
to let it keep still where it is and eat
a little now and then."—The Bits.

PLAYED GOLF WITH MILWAUKEE MEN

JANESVILLE HAS AN INTEREST-
ING GAME WITH CHAMPIONS.

Visitors Were Among the Crack Play-
ers of the Northwest, Having De-
feated the Great Onwentsia Club—
Who the Visitors and Victors
Were.

Milwaukee and Janesville golfers
met at Buckleton links this afternoon.
Three of the visiting team arrived last
evening, and most of the others came
this morning at 10:30. There was a
practice round this morning, and the
match proper began at 1 o'clock. A spec-
tators were numerous, many enthus-
iasts of the gentler sex being in at-
tendance. Janesville's chances were
recognized as very slender when the
names of the Milwaukee players were
announced, as all of the visiting team
rank high among Cream City golfers.

Substantially the same team defeated
the crack Onwentsia players last Sat-
urday in decisive fashion.

Those who made up the visiting de-
legation were Captain F. B. Keene, L.
T. Boyd, Grant Fitch, Walter Carey,
H. Spence, Hamilton Vose, J. O. Wall,
A. R. Houston and George H. Russell.
The score stood Milwaukee 10;
Janesville 11.

THE PROBLEM IN THE EAST.

What Shall Be Done with the Philippine Insurgents?

MAY HAVE TO WAR WITH THEM.

In the Event of Peace the Spanish Soldiers Will Surrender to Gen. Merritt and Aguinaldo Is Expected to Bitterly Resent This.

Washington, Aug. 4.—An interesting question and one of vital importance to the administration is the attitude to be assumed by the United States toward the Philippine Insurgents in the event that we reach an agreement for the suspension of hostilities with Spain. It is stipulated in our peace terms that the United States military forces shall occupy and establish a military form of government over the city of Manila and the bay, with the surrounding territory. This involves an immediate surrender of the Spanish forces, not to Aguinaldo but to Gen. Merritt, and there is some apprehension that the Insurgents will resent this very bitterly and that it will be necessary to expel them forcibly from the territory described. Beyond this, it is said in some quarters that pending the decision of the peace commissioners as to the future of the Philippines the United States will be morally bound to maintain the status quo in the islands at large. In other words, having deprived Spain of the means of resisting the onslaught of the Insurgents it has been urged that the United States would be bound to prevent the latter from continuing their warfare. There is a lack of information in Washington on many important points as to the conditions in the Philippines. For instance, it is not known even approximately how extensive the revolutionary movement has been throughout the vast group of 1,200 islands and among the large population, estimated to aggregate between 8,000,000 and 15,000,000. If the revolutionary movement is general and extends to very many of the islands the task presented to the United States military and naval authorities will be one of great magnitude, in the event that it is decided to be incumbent upon us not to restore Spanish sovereignty where it has been lost, but to prevent its overthrow in sections where it is still supreme, and to prevent excesses and outrages at the hands of the Insurgents.

NO ENEMY FOUND.

Army in Porto Rico Unable to Discover a Hostile Force.

Ponce, Porto Rico, Aug. 1, via St. Thomas, Aug. 4.—It is not expected that there will be any extensive movement of the American army toward San Juan until after the arrival of the cavalry, as there is a lack of mounts for reconnoitering. In the meantime reports come from San Juan showing that it is not unlikely that that place will receive our soldiers as Ponce did.

People from San Juan say that most of the citizens will welcome American annexation, and say also that the report of the number of Spanish soldiers there is greatly exaggerated. They assert that there are not over 6,000 troops there, and many of these are as badly frightened as the soldiers at Ponce were. They will surrender if they get a chance.

Texas Not Badly Hurt.

New York, Aug. 4.—The battleship Texas was placed in dry dock at the navy yard Wednesday. An examination of her shows that except for a slight dent in her keel made by striking a coral reef off Dry Tortugas she is in very fair condition.

Treats His Prisoners Well.

Washington, Aug. 4.—Consul William at Hongkong has sent a dispatch to the state department that Aguinaldo is treating all prisoners, including monks, humanely, and branding as false all contrary statements.

Prince Bismarck Deeply Affected.

Hamburg, Aug. 4.—The Hamburg Nachrichten publishes the following statement signed by Prince Herbert Bismarck:

"The numerous expression of deepest affliction and cordial sympathy, which testify to the imperishable memory of my great father, are becoming so overwhelming in their extent that it appears impossible to thank the mourners singly even to the end of my own life.

"In the name of the nearest relatives I thank with my whole heart all who, by words of comfort or floral tributes from those we have never seen, have given expression to the sorrow which fills our land."

To Assist Striking Miners.

Columbus, Ohio, Aug. 4.—The Pittsburgh district miners have appealed to the miners of competitive fields to contribute to a fund to assist the striking miners of Pittsburgh. The United Mine Workers now in session are endeavoring to bring the price of mining up to the Chicago agreement. In the Youghiogheny and Monongahela river regions 5,000 men are working under the district rate. These will be asked to quit Aug. 10 unless the Chicago rate and the district scale are observed.

Colombia Ready to Settle.

Berlin, Aug. 4.—The congress of the republic of Colombia. It is announced in a dispatch from Bogota, the capital, has unanimously resolved to deposit a sum equal to £50,000 (\$200,000) as security for the amount due the heirs of Signor Cerruti, the Italian subject whose claims against the government of Colombia were decided in his favor by President Cleveland as arbitrator.

STORIES OF THE DAY.

Peculiar Letter That Was Recently Received by Speaker Reed.

Speaker Reed, who likes to share his good jokes with his friends, received a peculiar letter the other day. After the morning business had been disposed of and the gavel yielded to one of his "travesties," the speaker trudged up the Democratic aisle to where Leader Bailey was seated. He drew out a folded sheet of foolscap and placed it in front of the Texas Democrat. As Mr. Bailey read he laughed more and more heartily, and the speaker gayly poked him in the ribs. Then Mr. Reed trudged back down the Democratic aisle and displayed the communication to Representative Page Morris of Minnesota, who enjoyed the joke as heartily as did Mr. Bailey. Representative Wadsworth of New York next deciphered the rural hand, and, like the other two, shook his sides with laughter. This is what the letter said: "I live in your district. I am a Republican and have always voted for you. I have a farm, which is worth \$575, on which is a mortgage of \$432. Now, I cannot make both ends meet and pay off the mortgage. I wish you would go to the members of congress, and if each one will give \$1 it will just about pay off the mortgage, and I will do as much for you if over I get the chance."

Representative Cousins of Iowa, who charmed the house recently with his eloquent tribute to the victims of the battleship Maine, has made only one set speech before this during his five years' service in the house. That effort was at the time the house proposed to censure Ambassador Bayard for certain utterances in England and was hardly a less notable one. Then he spoke for nearly an hour, and, as the other day, held the closest attention of both sides of the chamber. There is a peculiar power in his clear, musical voice that enables him to be heard without speaking at a high pitch. Yesterday one could have almost heard a pin drop while he was speaking.

The compliments he received were most flattering, for they came from both Democrats and Republicans. Representative Aldrich of Alabama as he grasped Mr. Cousins by the hand said with much feeling, "It was a word picture worthy of Bob Ingersoll or any other of his class." Representative Fitzpatrick, the stalwart Democrat of Kentucky, took a seat close to the Iowan on the Republican side. He was at the close of the speech one of the first to give Mr. Cousins a hearty congratulation.

Edwin Ames, a prominent official of Worcester, Mass., who was visiting members of the Massachusetts delegation at the capitol recently, told a story of the peculiar manner in which luck sometimes comes to doctors. Among the houses he rents in that city is one that was long occupied by a well established physician. This physician died, and Mr. Ames advertised the premises for rent. There were many applicants, but the first was a young medical student, just graduated from a school in Boston. Somewhat surprised at the audacity of the youth, Mr. Ames inquired his prospects and learned that he did not know a soul in Worcester and must depend entirely upon the income from his practice for support.

"I told him," said Mr. Ames, "that he must expect to starve for four or five years in Worcester before he could earn a living, but he insisted on renting the house, and I finally promised to remit \$10 from the amount of the first month's rent if he had a patient the first day. While I was assisting him in nailing up his sign a boy was run over by an ice wagon on that block and brought to the doctor to have his wounds dressed. Hardly had he finished with the boy before a woman in a passing car was stuck with a hatpin, and he was called upon to extract it. His luck began from that day. These patients advertised him through the accounts in the daily papers, and he is now the leading physician of our city."

An elegant bit of pasteboard, fashionably engraved, was sent in from the house corridor the other day to Representative William Connell, the plain man of simple manners, but honest heart, who has worked his way from a driver boy in the Pennsylvania mines to one of the largest and wealthiest individual operators in the Wyoming region. Looking as weather beaten as a gold seeker who had braved the rigors of an Alaskan winter, Mr. Connell responded in due season and was confronted by a young gentleman of easy manners and stylish clothes. The two were utter strangers, but after formal greetings the caller explained that he came from one of the towns in the district Mr. Connell represents, and had been on a tour south. "I have been to Tampa," he said, "and had a deuced good time, you know. From there I came on to Asheville, and so on to Washington, you know." All the while the young man flung his gold headed umbrella with some embarrassment and looked rather timidly at the listening congressman.

"You're busted," was Mr. Connell's reply.

"Well, yes, I am," the young man admitted.

"How much will it cost you to get home?"

"The railway fare is \$7, but I should need a little money besides."

The grizzled right hand that used to guide mining nudes through the dark passages dived down into the deep pocket of his black trousers and fished out a wallet.

"Will that do?" asked Mr. Connell indifferently as he proffered \$8 in bills.

The young man said it would, expressing his thanks profusely. "Shall I address a letter to you at your hotel or at the capitol?" he said, as he was about to hurry away.

"Oh, the capitol will do!" said Mr. Connell, but there wasn't a Klondike expression on his countenance.—Washington Post.

Sick Are Out of Danger.

New York, Aug. 4.—None of the 200 sick and wounded soldiers distributed among the different hospitals on Staten Island is in danger of death at present, although some are not out of danger. The men who arrived on the Seneca are the most improved, for they have been on Staten Island three weeks, and during that time have had the best of medical care. Most of those on the Concha's sick list are suffering from malarial fever. The reports from the sick at Swinburne Island and those detained at Hoffman Island also are favorably reported.

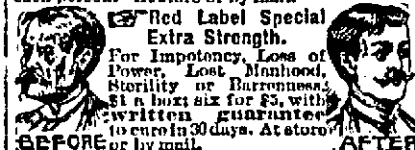

Mr. A. G. Wolfe, of Dundee, Mo., who travels for Mason & Tibbets Implement Co., of St. Louis, gives traveling men and travelers in general, some good advice. "Being a K&G of the Grip," he says, "I have for the past three years, made it a rule to make myself supplied with Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have found numerous occasions to test its merits, not only on myself, but on others as well. I can truly say that I never, in a single instance, have known it to fail. I consider it one of the best remedies travelers can carry and could relate many instances where I have used the remedy on skeptics, much to their surprise and relief. I hope every traveling man in the U. S. will carry a bottle of this remedy in his grip." For sale by Peoples' Drug Co., Milwaukee street.

LATE NEWS BY TELEGRAPH

HOW THE AMERICAN SHIPS BOMBARDED SANTIAGO.

Rear Admiral Sampson was able to co-operate with Major General Shafter in bombarding Santiago by elevating the guns upon his ships and by giving the ships a list to starboard. The shells then flew high over the intervening hills and did effective work in the city of Santiago and in the Spanish trenches. A church full of ammunition was blown up during the first bombardment.

CONFERENCE HELD YESTERDAY.

Sagasta Is Anxious to Retain the Island of Luzon, and Asks That His Soldiers Be Allowed Arms and Munitions of War.

Washington, Aug. 4.—An important conference was held at the white house Wednesday, when, shortly before 4 o'clock, M. Cambon, the French ambassador, called by appointment to discuss with the president and Secretary of State Day Spain's conditional acceptance of the terms imposed by the United States for a suspension of hostilities. The conference lasted about an hour, and is generally accepted in official and diplomatic circles as another of the scenes of Spanish procrastination that are expected to mark the closing of hostilities.

Ambassador Cambon said afterward that, at the request of the president, he must decline to make any statement concerning the conference.

While up to this writing it has been impossible to secure an official confirmation of the accuracy of the statement obtained at the French embassy early in the day that Spain makes no protest against the terms offered by this government, but simply asks an amplification of the policy of the United States regarding the Philippines, and makes a plea that the Spanish soldiers in evacuating Cuba and other Spanish territory on this hemisphere be permitted to take their arms and military stores with them. From the information obtainable it appears that Spain raises the question of our Philippine policy more to make a pitiful plea for the retention of the island of Luzon than to ascertain this government's policy. It is stated that no decided objection was entered to the occupation of Manila, Manila harbor and Cavite by the American troops pending negotiations, but a strong case was made from a Spanish point of view of the worthlessness of the islands to Spain unless that government is permitted to retain the island of Luzon and the port of Manila.

It is understood that Spain also requested an amplification of the intention of this country with respect to the conditions that will be imposed upon the Spanish troops when they withdraw from the American hemisphere. An explanation of the meaning of the terms employed in the American reply referring to the point, especially with reference to the length of time in which Spain would be allowed to transport them, was requested.

It was also suggested that, inasmuch as this government has stated positively that no portion of the Cuban debt would be assumed Spain considered it only just that her soldiers be permitted to withdraw with their arms and munitions of war. In making this argument it is understood that Spain emphasized the point that if she is to be compelled to defray the indebtedness she should be permitted to remain in control of the supplies for which a considerable portion of the money raised on Cuban bonds was expended.

It is not known that the president gave the French ambassador any assurances. It is believed that he stated his desire for time to submit the questions to his cabinet. While it has been formally announced that the United States will not modify its demands in any important particular it is believed that minor concessions may be granted, such as permitting the Spanish soldiers to embark with military honors, and take with them their rifles and ammunition.

The object of the inquiries will probably be accomplished when it is announced in Spain that the Madrid ministry has urgently demanded modifications in the terms. When the reply to the inquiries is transmitted and Spain's decision to comply with the terms is announced a declaration of a triumph for Spanish diplomacy will be.

quish sovereignty over all territory on this hemisphere and cede one of the Ladrone Islands to the United States for a naval station and permit the American forces to remain in control of Manila and Cavite pending negotiations. If she does not the war will continue without abatement until Spain discovers her error and again seeks peace. There is no disposition on the part of the administration to dictate when Spain must announce her acceptance of the conditions further than to demand that there shall be no unreasonable delay. It was expected that one or more inquiries would be made for the effect such a policy would have upon the Spanish people.

The president and his cabinet are much concerned over the condition that will exist in Cuba and Porto Rico as soon as it is announced that Spain has agreed to relinquish sovereignty. The Spanish soldiers, relieved of all discipline and restraints, may, as they did at Santiago, loot and sack the towns where they are garrisoned and inflict much damage and suffering. It is desired, if possible, to hold them responsible for the protection of the towns until they are relieved by American troops and then postpone relief until after the rainy season, when our soldiers will not be exposed to the danger of yellow fever. Such an arrangement will undoubtedly be made, if possible, but the president and his advisers are apprehensive lest it will be necessary to send 50,000 or 100,000 troops to Cuba within the present month.

RESIGNED TO THE INEVITABLE.

Sagasta Is Said to Have Accepted McKinley's Conditions.

London, Aug. 4.—The New York World correspondent cables: The conclusion of peace is regarded here merely as a matter of time. Madrid dispatches report that the financial straits of the Spanish government are desperate, and that popular feeling, except where affected by Carlist or republican propaganda, is now resigned to the inevitable. It is stated that in fact Sagasta has accepted President McKinley's conditions, but this is not officially confirmed from Madrid.

The Philippines are still regarded as the serious element of the situation. When the war began and reports of European intervention were being freely circulated Hanotaux said: "The real trouble will arise when peace terms are being negotiated."

Germany and Russia are anxiously watching the Philippine developments, while Great Britain, too, is greatly concerned lest they should fall under the domination of either of these powers. It is expected here that the United States will take all precautions in any arrangement concerted with Spain that Great Britain will not be placed at a disadvantage as compared with other powers.

At the same time it is pointed out that the United States may be preparing serious complications if its policy is guided by benevolent intentions toward any particular power where all have played the part of neutrals.

Seventh Illinois Not to Go.

Washington, Aug. 4.—Adjt.-Gen. Corbin has issued a general order assigning the troops of the provisional division to be sent to Porto Rico, under Maj.-Gen. Wade, to re-enforce Gen. Miles. Among the different regiments ordered were the First Rhode Island, Fourth Missouri, First New Jersey, Third Virginia, and the First Connecticut. The men are not yet aware of which regiments have been ordered to go to Porto Rico, and there will be much dissatisfaction felt among the members of the Seventh Illinois and the rest of those who are not included in the order.

Opening for Intrigue.

London, Aug. 4.—A dispatch to the Daily Mail from Singapore says: "President McKinley's proposal that a commission should decide the future government of the Philippines is considered here as giving Spain a chance of partial authority over her revolted subjects. This state of things, it is thought, might afford an opening for intrigues on the part of foreign powers unfriendly to America, Great Britain and Japan, and might prove dangerous to the cause of permanent peace in the Pacific."

DANGER OF AN EPIDEMIC.

Mild Form of Yellow Fever in New York Harbor.

QUARANTINE IS ENFORCED.

Soldiers Brought from Cuba on the Concho Are Suffering with the Disease—Authorities Not Much Alarmed Over the Situation.

New York, Aug. 4.—Unless the army officials in Cuba should make a sudden and material change in their methods of sending fever patients to the United States, it seems to be certain that Dr. Doty and the officials at quarantine will have to fight a threatened epidemic of yellow fever.

Six soldiers at Swinburne Island who came from Cuba on the Concho are sick with a malady which is euphemistically called dengue fever. In reality it is yellow jack—not in virulent form at present, but still sufficiently active to be a distinct source of menace. These six men were not suffering from the disease when they left Cuba. They contracted it aboard the pest-ships Concho. It is said, from those who were supposedly convalescing from the disease when they left Santiago.

The six men are isolated. They are being treated by Dr. Lessor's successful starvation method, and it is believed there is no reason to fear a spread of the disease, as the men have it in a very mild form. On the other hand the quarantine officials argue that if ordinary precautions had been taken it would have been impossible for the men to have contracted the disease during their voyage north.

From the testimony of the men it seems to be definitely established that few if any of the patients were distinguished before they were carried aboard the Concho, while it is certain that no attempt whatever was made to prepare the ship for their reception.

MEET IN CONVENTION.

Republicans of Indiana Will Choose Their Candidates.

Indianapolis, Ind., Aug. 4.—The preliminary session of the republican state convention Wednesday afternoon lasted but two hours. Senator Charles W. Fairbanks occupied an hour and a half of the time in a discussion of national and state issues.

The resolutions committee was handed a platform prepared in advance by Charles E. Wilson, secretary to Gov. Mount, which it adopted without alterations. It will be submitted to the convention today. One of its clauses is as follows:

"Having achieved its manhood, the republic, under God, is entering upon its greatest period of power, happiness and responsibility. Realizing the mighty future of wealth, prosperity and duty which is even now upon us, we favor the extension of American trade, the reformation of our consular system accordingly, the encouragement by all legitimate means of the American merchant marine, the creation of a navy as powerful as our commerce shall be extensive for the public defense and security and the establishment of coaling stations and naval rendezvous wherever necessary."

"We most heartily approve of the annexation of the Hawaiian Islands as a wise measure, and recommend the early construction of the Nicaraguan canal under the immediate direction and exclusive control of the United States government, the importance and necessity of the canal having been emphasized by recent events connected with the present war with Spain."

Present conditions of business in this country, as well as the state of national revenues, will be cited in the platform as proof of the wisdom of the enactment of the Dingley law. The national convention declaration for a gold standard of currency will be warmly reiterated. On state issues chief among the platform declarations will be one of a primary election reform law.

President Cannot Attend.

Rock Island, Ill., Aug. 4.—A telegram has been received from President McKinley announcing his inability to be present at the national encampment of the Union Veterans' union in this city next week, but saying he would send a message to the convention. The encampment will open Tuesday and continue three days.
